Awards

Alan L. Schwartz, Ph.D., M.D.

Receives

Honorary Degree from University of Helsinki

Dr. Schwartz recently received an honorary Doctorate of Medicine and Surgery from the University of Helsinki that came steeped in nearly 400 years of tradition and ceremony and included some unique, symbolic gifts. He was one of 15 physician-scientists from around the globe to receive one of the honorary doctorates, which the university's medical faculty awards only once a decade. The University of Helsinki is one of the world's leading research-intensive universities.

Dr. Schwartz, who studied at the University of Helsinki for two years during graduate school, took part in the three-day event, including the formal, five-hour ceremony in early June. Each of the honorary degree recipients was introduced in his or her native language, then presented with a 40-inch sword inscribed with the University of Helsinki's insignia, a hat made of dark green silk (for medicine) and a diploma. The university has been awarding the swords, hats and diplomas to honorary doctors since it was founded in 1640. The sword represents knowledge, and the hat represents truth.

Honorary degree recipients and university graduates dressed in formal attire, including tuxedo tails, and wore their own "hats of truth" in colors representative of their school, such as law, medicine, theology or philosophy.

The honorary degree award ceremony was an enormously thrilling as well as a humbling experience," Schwartz says. "Thrilling to be part of the culture and history of the University of Helsinki and its 370-year tradition, and humbling in my being selected and lauded in such a grand and ceremonious fashion."

Funded Awards

July/August/September 2010

<u>PI</u>	<u>AWARD</u>	<u>PI</u>	<u>AWARD</u>
Kevin Barton	Genzyme Fellowship	David Haslam	WU/Pfizer
Michael DeBaun	SLCH Foundation	James Kemp	St. Louis Regional Health Commission
	NIH R01 Renewal	Mark Manary	Allen Foundation
	(4) SLCH Foundation Research Grants	Development	Academy of Educational
Brian DeBosch	PSDP/Yale University	Jared Muenzer	NIH R01 Sub w/Univ. of Mich.
Todd Druley	NIH K08	Kim Quayle	NIH R01 Sub w/UC Davis
Jennifer Duncan	WU Nutrition & Obesity Research Center	Alan Schwartz	NIH R13
Thomas Ferkol	State of Missouri	Jennifer Silva	Medtronic
Anthony French	WU Center for Women's Infectious Diseases	Gregory Storch	HRSA/City of St. Louis

Announcements

Important Notice Postponement of Women in Pediatrics Site Visit

The Women in Pediatrics Site Visit originally scheduled for October 13 & 14th, 2010 has been postponed. Please remove all scheduled times for this visit from your calendar. We plan to reschedule for Spring 2011.

Clinician Educator Portfolio (CEP)

Presented by:
Department of Pediatrics
Office of Faculty Development

Facilitators:
Alan L. Schwartz, Ph.D., M.D.
Brian P. Hackett, M.D., Ph.D.
Sherrie M. Hauft, M.D.
Bess A. Marshall, M.D.
Robert J. Rothbaum, M.D.

Friday, October 29, 2010
3:00 - 5:00 p.m.
SLCH - 5S28

Please plan to bring your Educator Portfolio.

There will be a brief presentation on Educator Portfolios followed by consultation with faculty experts.

RSVP Cheryl Genovese 454-4952 or
genovese_c@kids.wustl.edu

Dr. Schwartz has graciously agreed to provide support for the first year's dues for membership in the AWN at Washington University School of Medicine for new female faculty.

Address for information about this organization is:

<http://awn.wustl.edu>

Complete membership form @

<http://awn.wustl.edu/awntop/awnmembership.pdf>

For Processing—Return to:

Jennifer Albertina
Executive Director
Business Affairs & Strategic Planning
Dept. of Pediatrics
Campus Box 8116

New Faculty Orientation 2010

The OFD would like to thank Drs. Schwartz, Cole and Rothbaum along with Dr. Lisa Moscoso, representing the AWN, & Paula Murphy, Mgr. of Physician and Pediatric off-site services, for facilitating the New Faculty Orientation held August 27th. We had a great response and, if any new faculty have any questions, or would like the packet of information distributed at the orientation, please contact Cheryl Genovese at 454-4952 or

genovese_c@kids.wustl.edu

New NIH video gives inside look at grant process

The National Institutes of Health's (NIH) Center for Scientific Review (CSR) recently released a new [video](#) demonstrating how the NIH evaluates the more than 80,000 grant applications it receives each year. The video, currently available on the CSR's Web site, provides "an inside look" at how peer reviewers determine which grants have the most merit and includes recent enhancements to the peer review and grants systems. CSR also released a companion video titled "NIH Tips for Applicants."

Fall Back Into Back Up Care

WU partners with Bright Horizons to offer this high-quality program when you need temporary care for your dependents.

-  **School/center holidays, such as Thanksgiving break—check your school calendar!**
-  **School/center closings for teacher development, conferences, and early release days.**
-  **Your dependent's at-home caregiver is ill, has appointments, or is otherwise unavailable.**
-  **You are between full-time care arrangements and need temporary care to fill the gap.**
